

## WELCOME TO THE FOURTH NEWSLETTER FOR THE iGUIDE PROJECT!

### iGUIDE PROJECT UPDATES

With the pandemic promoting remote working, iGUIDE partners have been working mainly from home, turning the project's implementations from face-to-face to online.

Over the past few weeks iGUIDE partners have finalised their LTTA-training!

Work on the iGUIDE Career Planning Toolkit Resources and on our Online Portal is almost finalised and the partners can't wait to spread the news and share iGUIDE learning resources!

But let's see the updates steps by step!

### iGUIDE VIRTUAL TRAINING

iGUIDE LTTA took place online between *15th - 17th June 2021*. The three day virtual training gave the possibility to participants to be introduced to the project and its achievements and interact with the innovative resources in self-directed contexts.

On the first day of training, the trainer introduced the IO1 - Career Guiding Toolkit Resources. Each participant got acquainted with the form and structure of the resources and then joined a group exercise, where they chose one of the 36 IO1 topics and attempted to proceed with the fact sheets and the self-reflection exercise based on the handbook. Once the participants became familiar with the format and topics of IO1 and have worked through one of the topics together, the second task was to individually select three out of the 35 remaining topics of IO1 and work through them in the form of self-directed learning on Day 2 and Day 3 of the training. At the end of the first day training day each participant informed the trainer about the topics s/he has chosen, whereas in the end of the training s/he sent the completed exercise to the trainer.

All in all, the virtual training experience was a fruitful one with participants being introduced to the iGUIDE e-Learning Portal and resources that fill in a gap to the existing context with regards to career planning and guiding own career.

## iGUIDE e-LEARNING PORTAL

The iGUIDE e-Learning Portal is now available in EN: (<https://iguideproject.eu/outputs/>). It is a self-directed platform that supports adult users/ learners/ visitors to manage their own career!

Users/ learners/ visitors are invited to take a glance at own pace and time to the 36 resources that will support them in making better, more informed and more appropriate career choices, guiding their own career. Feel free to visit and explore!

## WHAT'S COMING NEXT?

Within the following weeks, work on the iGUIDE e-Learning Portal (<https://iguideproject.eu/outputs/>) will be finalised with the resources being translated into all partners' national languages, whereas the Career Planning Workshops, where adult educators and learners will be engaged to test the interface and resources, will be organised in all partner-countries. Stay tuned to find out more!

## iGUIDE PARTNERS

The project is developed by seven partners from seven European countries:

The organizations have different sizes, characteristics and specializations, which help us develop a very effective cooperation. The project meetings are scheduled in regular basis to stay constantly involved in the project and focused on our goals.
